1. SASAMS is used as the primary source of evidence, planning and reporting in the Department of Education. 2. The information extracted from SASAMS is critical in the planning and provisioning of educator training to enhance inclusive education and practices in all classrooms, across all public school in the Province.
3. Qualifications and training in inclusive education and practices, includes all qualifications and SACE accredited training, whether attained through private institutions, institutions of Higher Learning (Universities), teacher trade unions or the teacher development programmes of the Eastern Cape Department of Education.
4. In order to improve the validity and the credibility of the reporting in the area of inclusive education, it is requested that Principals ensure that the qualifications of educators are updated regularly.
