#### EQUAL PAY FOR WORK OF EQUAL VALUE

#### 2. Equal Pay for Work of Equal Value Criteria

These Regulations are published to prescribe the criteria and methodology for assessing work of equal value contemplated in section 6(4) of the Act.

#### 3. Eliminating unfair discrimination

- (1) An employer must, in order to eliminate unfair discrimination, take steps to eliminate differences in terms and conditions of employment, including remuneration of employees who perform work of equal value if those differences are directly or indirectly based on a listed ground or any arbitrary ground that is prohibited by section 6(1) of the Act.
- (2) Without limiting sub-regulation (1), an employer must ensure that employees are not paid different remuneration for work of equal value based on race, gender or disability.

#### 4. Meaning of work of equal value

For the purposes of these Regulations, the work performed by an employee -

- (1) is the same as the work of another employee of the same employer, if their work is identical or interchangeable;
- (2) is substantially the same as the work of another employee employed by that employer, if the work performed by the employees is sufficiently similar that they can reasonably be considered to be performing the same job, even if their work is not identical or interchangeable;

(3) is of the same value as the work of another employee of the same employer in a different job, if their respective occupations are accorded the same value in accordance with regulations 5 to 7.

#### 5. Methodology

When, applying section 6(4) of the Act –

- (1) it must first be established:
  - (a) whether the work concerned is of equal value in accordance with regulation 6; and
  - (b) whether there is a difference in terms and conditions of employment, including remuneration.
- (2) it must then be established whether any difference in terms of sub-regulation (1)(b) constitutes unfair discrimination, applying the provisions of section 11 of the Act.

#### 6. Assessing whether work is of equal value

- (1) In considering whether work is of equal value, the relevant jobs must be objectively assessed, taking into account the following criteria:
  - (a) the responsibility demanded of the work, including responsibility for people, finances and material;
  - (b) the skills and qualifications, including prior learning and experience, required to perform the work, whether formal or informal;
  - (c) the physical, mental and emotional effort required to perform the work; and
  - (d) to the extent that it is relevant, the conditions under which work is performed, including the physical environment, psychological conditions, time when and geographic location where the work is performed.
- (2) In addition to the criteria specified in sub-regulation (1), any other factor indicating the value of the work may be taken into account in evaluating work, provided the employer shows that the factor is relevant to assessing the value of the work.
- (3) The assessment undertaken in terms of sub-regulations (1) and (2) must be conducted in a manner that is free from bias on grounds of race, gender, disability or on any other ground contemplated in section 6(1) of the Act.
- (4) Despite sub-regulations (1) and (2), an employer may justify the value assigned to an employee's work by reference to the classification of a relevant job in terms of a sectoral determination made by the Minister of Employment and Labour in terms of section 55 of the Basic Conditions of Employment Act, 1997 (Act No. 75 of 1997) which applies to the employer.

#### 7. Factors justifying differentiation in terms and conditions of employment

- (1) If employees perform work that is of equal value, a difference in terms and conditions of employment, including remuneration, is not unfair discrimination if the difference is fair and rational and is based on any one or a combination of the following grounds:
  - (a) the individuals' respective seniority or length of service;

- (b) the individuals' respective qualifications, ability, competence or potential above the minimum acceptable levels required for the performance of the job;
- (c) the individuals' respective performance, quantity or quality of work, provided that employees are equally subject to the employer's performance evaluation system, that the performance evaluation system is consistently applied;
- (d) where an employee is demoted as a result of organisational restructuring or for any other legitimate reason without a reduction in pay and fixing the employee's salary at this level until the remuneration of employees in the same job category reaches this level;
- where an individual is employed temporarily in a position for purposes of gaining experience or training and as a result receives different remuneration or enjoys different terms and conditions of employment;
- (f) the existence of a shortage of relevant skill, or the market value in a particular job classification; and
- (g) any other relevant factor that is not unfairly discriminatory in terms of section 6(1) of the Act.
- (2) A differentiation in terms and conditions of employment based on one or more grounds listed in sub-regulation (1) will be fair and rational if it is established, in accordance with section 11 of the Act, that –
  - (a) its application is not biased against an employee or group of employees based on race, gender or disability or any other ground listed in section 6(1) of the Act; and
  - (b) it is applied in a proportionate manner.

- 3. **"Remuneration"** means any payment in money or in kind, or both in money and in kind, made or owing to any person in return for that person working for any other person, including the State.
- 4. Remuneration (i.e. fixed and variable remuneration) contained in this form must reflect information of the same employees reflected in the EEA2 Form for the reporting period concerned across all occupational levels. The workforce in terms of race and gender must be exactly the same as the workforce outlined in the EEA2 Form.
- 5. All employees, including Foreign Nationals and temporary employees (i.e. those employees employed to work for less than three months) must be included when completing the EEA4 Form.
- 6. Calculation of remuneration must include a period of twelve months and reflect the same reporting period covered by the EEA2 Form. Where an employee had not worked for a full twelve-month period, an amount equivalent to the annual remuneration must be calculated and furnished. For example, the annual equivalent for an employee who worked for three months and earned R30 000 is R120 000 (i.e. (R30 000 / 3) \* 12). All remuneration amounts to be reflected in the table below must be rounded up to the nearest Rand (R) and included as total remuneration (fixed / guaranteed remuneration plus any variable remuneration) that was paid out for each group in terms of population group and gender.
- No blank spaces, commas (,), full stops or decimal points (.) or any other separator should be included when capturing the remuneration information in each of the cells in the table below – for example R7 345 567.6 must be captured as R7345568 with no separators.
- 8. All remuneration (i.e. total cost to company) must be included in the form as annualized fixed / guaranteed remuneration and annualized variable remuneration). The information below provides inclusions and exclusions to consider when completing the EEA4 Form.

#### 8.1 Fixed / Guaranteed remuneration includes:

- a) Salary/wage;

- d) Discretionary payments not related to an employee's hours of work or performance (for example, a retention bonus);
- e) As provided for by the Income Tax Act, the taxable benefit portion of bursaries and scholarships provided to the employee and/or relatives of the employee;
- f) Dividends included as remuneration by the Fourth Schedule of the Income Tax Act; and
- g) Overtime.

#### 8.3 Excluded:

SECTION E: MEDIAN REMUNERATION AND THE REMUNERATION GAP
Please note that in order to complete this section properly, your payroll must be sorted in ascending order from the lowest pay to the highest pay. <b>Total annual</b> <b>remuneration</b> includes fixed/guaranteed and variable pay. The ' <b>median</b> '" is the "middle" value in a list of payments (i.e. total remuneration) ranked from lowest to highest. When the payroll contains an even number of values, the median is the sum of the two middle values divided by 2. The <b>range</b> is the area of variation that includes the lower and upper limits of a particular scale. To calculate the range of the top 5% highest paid employees and the range of the lowest 5% paid employees,

please do the following:

Sort the payroll in ascending order (from the lowest pay to the highest pay).
 Multiply the total number of employees by 5% (Round off decimals to the nearest whole number).

Refer to the earnings of employees that correlate to the number referred to above.
 Capture the range (lowest and highest) remuneration of the top 5% of the highest paid employees, e.g. from R1000, 000 (lowest) to R2000, 000 (highest).
 Repeat the exercise for the lowest 5% paid employees, e.g. from R100, 000 (lowest) to R200, 000 (highest).

### DEMOGRAPHIC PROFILE OF THE NATIONAL AND/OR REGIONAL ECONOMICALLY ACTIVE POPULATION

Statistics South Africa provides demographic data using Quarterly Labour Force Surveys (QLFS) from time to time. The Quarterly Labour Force Surveys provide statistics on the national and provincial Economically Active Population (EAP) in terms of race and gender. Designated employers are required to use the Labour Force Survey of the third quarter for employment equity (EE) purposes when conducting an analysis (Section 19), preparing and implementing an EE plan (Section 20) and when reporting (Section 21) to the Department in terms of the EE Act, 1998 as amended.

Designated employers operating in more than one province must consider the nature and geographical area of their operations and adopt either the national or regional EAP for conducting an analysis, preparing an EE plan and reporting to the Department.

Designated employers who operate in more than one but whose operations are predominantly in one province may choose the EAP of the province where their operations are dominant.

Employers using the national EAP, or the EAP of a province in which the major part of its operations are, must nevertheless have regard to variations between the EAPs of different provinces when setting targets to achieve equitable representation of employees from designated groups in all occupational levels.

This information is reviewed annually, and also made available in the Commission for Employment Equity (CEE) Annual Reports, which may be accessed from the Department of Employment and Labour website: www.labour.gov.za

### OCCUPATIONAL LEVELS

### WHAT IS THE PURPOSE OF THIS ANNEXURE?

Job evaluation or grading systems are used by many organisations to measure jobs according to their content and establish the comparative worth between jobs.

This annexure provides a table of equivalent occupational levels that may be used by employers when completing the EEA2 and EEA4 forms.

### INSTRUCTIONS

The table below indicates the occupational levels within organisations as developed through the use of different job evaluation or grading systems. The table provides equivalent levels from each of these job evaluation systems.

Employers that do not have job evaluation and grading systems should use the table below for guidance to determine the occupational levels in their organisations.

### **IMPORTANT INFORMATION**

- d. Section 19(2) of the EEA requires a designated employer to conduct a workforce profile analysis to determine the degree of under-representation of the various population groups in the different occupational levels, particularly the designated groups (Blacks, women and employees with disabilities). The first step in conducting an analysis of the workforce profile is to differentiate between employees of the various groups, both in terms of the designated (i.e., Blacks, women and employees with disabilities) and non-designated groups by using the EEA1 form, contained in the regulations, for employees to declare their status.
  - (i) Where there is doubt in the self-identification process of an employee, existing and/or historical information may be used to assist to verify an employee's status.
  - (ii) An analysis of the workforce profile should provide a comparison of designated groups using upto-date demographic data in terms of their Economically Active Population (EAP) and their representation at the various occupational levels. The EAP is contained in the latest published Commission for Employment Equity (CEE) Annual Report and the description of the various occupational levels is contained in the EEA9 form of the regulations.
  - (iii) Designated employers operating in more than one province must consider the nature and geographical area of their operations and elect to adopt either-
    - (a) the national EAP;
    - (b) the provincial EAP for each of the provinces in which they operate;
    - (c) the provincial EAP of the province where the largest part of their operations is conducted.
  - (iv) Designated employers using the national EAP, or the EAP of a province in which the major part of its operations are, must nevertheless have regard to variations between the EAPs of different provinces when setting targets to achieve equitable representation of employees from designated groups in all occupational levels.
  - (v) Designated employer must use the EAP that they have chosen for conducting an analysis, preparing an EE plan and reporting to the Department and must utilise it for the entire duration of the EE Plan in line with the relevant 5-year sector targets.
  - (vi) The analysis of the workforce profile must be based on a snapshot of the employee distribution in the various occupational levels on a particular date in terms of race, gender and disability, and per occupational level on that date.
  - (vii) The analysis must capture the under-representation or over-representation of a particular group, whether designated or non-designated, and be used to identify and prioritize strategies in the EE plan, in order to address such under-representation.
  - (viii) A designated employer must conduct an Analysis for the purpose of addressing the 5-year sector specific targets set in terms of Section 15A of the Employment Equity Act as amended.
- e. The alphabets "A", "C", "I", W", "M" and "F" used in the tables have the following corresponding meanings and must be interpreted as "Africans", "Coloureds", "Indians", "Whites", "Males" and "Females" respectively.
- f. "Temporary employees" are those employees employed for less than three months.

### 2. WORKFORCE PROFILE ANALYSIS

Section 19(2) of the EEA requires designated employers to conduct a workforce profile analysis of each occupational level in order to determine the degree of under-representation of the various population groups in the different occupational levels.

Designated employers must use the relevant Economically Active Population (EAP) and the 5-year sector targets that have been set in terms of Section 15A of the Employment Equity Act as amended and its regulations in terms of population group, gender and for employees with disabilities when conducting a workforce profile analysis to determine the under-representation.

### 2.1 5-YEAR SECTOR NUMERICAL TARGETS AND NUMERICAL GOALS

Employers must set their own targets for the two bottom occupational levels (i.e. semi-skilled and unskilled). Employers will have to make a full analysis to set targets for these two levels before populating the table below.
